PROFILE SUMMARY

As a motivated and compassionate senior high school student, I am seeking an entry-level position in the medical field where I can apply my strong interpersonal skills and passion for helping others. I am eager to gain hands-on experience and learn from professionals in a healthcare setting while contributing to patient care and overall team success. Known for my respectful and empathetic approach, I am dedicated to creating a positive environment and providing support to both patients and staff. My strong work ethic, attention to detail, and willingness to take on new challenges make me a reliable and enthusiastic team member ready to contribute to the healthcare field.

COMMUNITY SERVICE

Monterey Bay Economic Partnership

2024

- I volunteered 36 hours with the Monterey Bay Economic Partnership where I helped sort and organize files, create flyers for events, and assist with event planning and setup. This experience allowed me to develop skills in organization, teamwork, and communication while supporting the local community

Mission Trails ROP Open House

2024

- I volunteered 3 hours at the Mission Trails Regional Occupational Program Open House, where I demonstrated the proper use of Personal Protective Equipment (PPE) in healthcare. I showed visitors how to correctly wear items like gloves, masks, gowns, and shoe coverings, explaining the importance of each in keeping both healthcare workers and patients safe. I also walked through the steps for putting on and taking off PPE to prevent contamination and answered questions from attendees. It was a rewarding experience using the skills of public speaking to help others learn about safety practices in healthcare and support those interested in pursuing healthcare careers.

Adopt A Family

2022-2023

- Volunteered 6 hours to help wrap gifts for the "Adopt a Family" program for 2 years during the Christmas season. This experience allowed me to contribute to spreading holiday cheer and support families in need while working with others in teamwork to complete the task efficiently.
